Overall Length:

9.000 inches

Overall Height:

0.333 inches

Overall Width:

5.560 inches

End Application:

Model e-2c acft

Special Features:

Major components: connector 2; capacitor, 27; microcircuit 48; printed wiring board 1; resistor network 4; resistor, fixed 4; special test features: fragility factor 42g; unpackaged unit weight: 1.700 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
