Overall Length:

9.000 inches

Overall Height:

0.320 inches

Overall Width:

5.560 inches

End Application:

Model e-2c acft

Special Features:

Ymajor components: printed wiring board 1; capacitor, fixed 37; connector 2; resistor, fixed 3; microcircuit 77; special test features: fragility factor 42; fsc application data: signal processor, co; unpackaged unit weight: 1.500 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
