**Overall Length:**

9.000 inches

**Overall Height:**

0.320 inches

**Overall Width:**

5.560 inches

**End Application:**

Model e-2c acft

**Special Features:**

Ymajor components: printed wiring board 1; capacitor, fixed 37; connector 2; resistor, fixed 3; microcircuit 77; special test features: fragility factor 42; fsc application data: signal processor, co; unpackaged unit weight: 1.500 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
