Overall Length:

9.500 inches

Overall Height:

0.360 inches

Overall Width:

5.000 inches

End Application:

Interface device

Features Provided:

Electrostatic sensitive

Special Features:

Major components: printed wiring board 1; connector 1; integrated circuit 30; resistor 3; capacitor 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
