Features Provided:

Electrostatic sensitive

Special Features:

Component quantity: printed wiring board - sweep 1, polarizing key - nafi 2, ejector printed circuit card 2, resistor 145, capacitor 106, diode 21 microcircuit 20, insulator disc - component 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
