Overall Length:

22.000 inches

Overall Height:

14.250 inches

Overall Width:

3.500 inches

End Application:

Position and azimuth determining system, pads, nsn 6675-01-071-5552, power supply 15 volts

Special Features:

Component quantity: printed wiring board 1, microcircuit 13, semiconductor 48, capacitor 51, resistor 134, reactor 2, connector 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
