Overall Length:

25.500 inches

Overall Height:

14.250 inches

Overall Width:

1.500 inches

End Application:

Position and azimuth determining system, pads, nsn 6675-01-071-5552, sequence monitor

Special Features:

Component quantity: printed wiring board 1, microcircuit 24, transistor 8, resistor 147, semiconductor 24, capacitor 39, inductor 4, connector 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
