End Application:

Gunnery equipment

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Pwb 1, microcircuit comparator 4, cap 32, semiconductor 14, connector 4, res 76, microprocessor 1, microcircuit level shift 2, microcircuit inv buffer 2, microcircuit d flip flop 2, microcircuit nandgate 3, microcircuit divider 1, microcircuit multivibrator 1, microcircuit volt ref 1, crystal 1, microcircuit norgate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
