Overall Length:

17.000 inches

Overall Height:

1.007 inches

Overall Width:

10.125 inches

End Application:

Model e-2c acft

Product Name:

Signal processor

Special Features:

Major components: printed wiring board 1; resistor, fixed 2; resistor network 4; unpackaged unit weight: 2.700 pounds; supplementary features: fragility factor 40g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
