Overall Length:

11.125 inches

Overall Height:

1.500 inches

Overall Width:

4.375 inches

End Application:

6530-01-134-3182 thermoregulator, patient

Special Features:

Major components: capacitor 14; printed wiring board 1; resistor 23; potentiometer 1; diode 8; transistor 7; rectifier 2; heat sink 6; connector 3; cubic feet: 0.044; mounting configuration: five 0.156 in. Diameter holes; one hole in each corner and one hole in center of board

Unpackaged Unit Weight:

0.670 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
