Overall Length:

11.500 inches

Overall Height:

1.125 inches

Overall Width:

5.500 inches

End Application:

6530-01-134-3182 thermoregulator, patient

Product Name:

Used on main control

Special Features:

Major components: capacitor 42; printed wiring board 1; resistor 118; potentiometer 9; diode 6; transistor 10; speaker 1; connector 7; socket 3; pin 2; ground and special ground 1; cubic feet: 0.042; mounting configuration: five mounting holes 0.156 in. Dia

Unpackaged Unit Weight:

0.580 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
