Overall Length:

9.800 inches

Overall Height:

0.500 inches

Overall Width:

5.200 inches

End Application:

Improved guardrail sensor

Special Features:

Printed wiring board 2, microcircuit, digital 10, microcircuit, linear 8, transistor 1, oscillator, rf 1, light indicator 8, capacitor 22, semi-conductor 1, resistor 47, transformer 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
