End Application:

U/o f101-102 eng; e/i b1-b acft

Special Features:

Major components: c/o 27 pin arrangement 0.130 in. Min lg; matl qq-s-571 sn63 on modules; functional description: used for input output signals on a.F.T. Control located on rt lower middle side of engine; relationship to similar equipment: similar to pn 7038m16

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
