Overall Length:

5.300 inches

Overall Height:

0.250 inches

Overall Width:

3.300 inches

End Application:

F-16c/d acft

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Board assembly rf controller rf monitor

Special Features:

Part of dual mode transmitter p/n 759r230; used on improved an/apg fire control radar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
