Overall Length:

4.280 inches

Overall Height:

0.290 inches

Overall Width:

4.000 inches

End Application:

Communications control center an/tsq-111

Features Provided:

Electrostatic sensitive

Special Features:

Major components: capacitor 10; printed wiring board 1; resistor 1; microcircuit digital 12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
