Overall Length:

10.000 inches

Overall Height:

0.625 inches

Overall Width:

5.425 inches

End Application:

F-16 avionics familiarization trainer

Product Name:

Cca, dual processor

Special Features:

Components: connector 1-100 male contacts on printed circuit edge board 0.125 inch spacing, 50 contacts each side; printed wiring board 1; mounting method: plug-in with 2 mounting holes; located in cpu; approved for use on depot level ground based equipment only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511k0
