Criticality Code Justification:

Zzzy

Special Features:

Circuit board, capacitor 9, diode 18, transistor 6, amplifier 5, resistor 47

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
