**Overall Length:**

6.000 inches

**Overall Width:**

2.500 inches

**End Application:**

Low level wind shear alert system (llwsas)

**Product Name:**

Functional description: 7 digit display

**Special Features:**

Capacitor 2, diode 7, microcircuit 10, printed wiring board 1; function: cca, 7 digit center field wind display; reference data: 1a12a2, ti 6560.116a, fa 10239, pg 8-33

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
