End Application:						
6625-01-126-3154						
Features Provided:						
Electrostatic sensitive						
Criticality Code Justification:						
Cbbl						
Special Features:						
Major components: pwb 1; cap 23; c	diode 18;	voltage surge pr	otector 1; relay 3	3; coil 1; xstr 40;	; resistor 67; r	microcircuit 7
Shelf Life:						
N/a						
Unit Of Measure:						
Demilitarization:						
No						
Fiig:
