End Application:

An/tsq-111 control nodal communication element 5895011888682

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Major bridge inverter

Special Features:

C/o pwb 1, semiconductor dvc 16, resistor 9, capacitor 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:
