**Overall Length:**

5.900 inches

**Overall Height:**

0.460 inches

**Overall Width:**

3.000 inches

**End Application:**

An/apq-169 indicator, radar

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Multivolt power supply control board

**Special Features:**

Capacitor 22; diode 14; microcircuit 7; printed wiring board 1; resistor 60; transistor 2; electrostatic discharge sensitive; 5841-01-204-7687 power supply

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
