Overall Length:

7.353 inches

Overall Width:

7.000 inches

End Application:

Advance international missile system (mx)

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

Pwb 1; integrated circuit 36; capacitor 12; electrostatic sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
