Overall Length:

15.875 inches

Overall Width:

7.875 inches

End Application:

Maintenance processor subsystem, line printer, type t16-5513

Product Name:

Functional description: hammer dr

Special Features:

Capacitor 23, diode 3, microcircuit 33, printed wiring board 1, resistor 73, transistor 1; part of tandem maintenance processor.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
