End Application:

Automatic test equipment (ate)

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Frequency translator

Special Features:

Pwb 1; integrated circuit 16; resistor network 2; resistor 6; capacitor 9; led 1; connector 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
