End Application:

Automatic test equipment (ate)

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Frequency counter interface

Special Features:

Pwb 1; resistor 31; thermister 1; capacitor 26; inductor 1; diode 8; detector 1; integrated circuit 8; terminal 14; esd next higher assembly - iais test station, p/n 2215000-103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
