**End Application:**

Automatic test equipment (ate)

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Threshold amplifier

**Special Features:**

Pwb 1; resistor 6; capacitor 9; inductor 4; terminal 5; integrated circuit 4; transistor 2; diode 2 next higher assembly - iais test station, p/n 2215000-103

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
