End Application:

Automatic test equipment (ate)

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Threshold amplifier

Special Features:

Pwb 1; resistor 6; capacitor 9; inductor 4; terminal 5; integrated circuit 4; transistor 2; diode 2 next higher assembly - iais test station, p/n 2215000-103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
