**End Application:**

Automatic test equipment (ate)

**Features Provided:**

Electrostatic sensitive

**Criticality Code Justification:**

Cbbl

**Product Name:**

Switch module

**Special Features:**

Pwb 1; switch assembly 3; capacitor 16; inductor 8; integrated circuit 1 next higher assembly - iais test station, p/n 2215000-103

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
