Overall Length:

4.500 inches

Overall Height:

0.875 inches

Overall Width:

4.062 inches

End Application:

Power conditioning system

Product Name:

Functional description: super speed serial interface board

Special Features:

Capacitor 7, diode 1, resistor 5, switch 2, microcircuit 9, printed wiring board 1, transistor 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
