**Overall Length:**

4.500 inches

**Overall Height:**

0.875 inches

**Overall Width:**

4.062 inches

**End Application:**

Power conditioning system

**Product Name:**

Functional description: super speed serial interface board

**Special Features:**

Capacitor 7, diode 1, resistor 5, switch 2, microcircuit 9, printed wiring board 1, transistor 5

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
