Overall Length:

0.850 inches

Overall Width:

0.450 inches

Special Features:

Plug-in socket 1, fixed resistor 5, fixed capacitor 1, semiconductor diode 2; mounting method: plug-in mounted; thermoplastic polyester insulator; copper alloy contacts with gold over nickel plating; two rows, eight contacts per row spaced 0.100 inch enter to center, rows spaced 0.300 inch center to center

Precious Material And Location:

Contact surfaces gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
