Overall Length:

8.250 inches

Overall Width:

8.000 inches

End Application:

Power conditioning system

Product Name:

Functional description: gate timer

Special Features:

Capacitor 28, diode 17, microcircuit 32, printed wiring board 1, resistor 65; reference data: ti 6980.76, list 00999, seq al09, pg 10-18, vol 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
