**Product Name:**

Fsc application data: airborne communication system

**Special Features:**

Capacitor 27; connector 2; diode 26; inductor 1; microcircuit 71; printed wiring board 2; resistor 113; transistor 25; variable resistor 11

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
