Product Name:

Fsc application data: airborne communication system

Special Features:

Capacitor 27; connector 2; diode 26; inductor 1; microcircuit 71; printed wiring board 2; resistor 113; transistor 25; variable resistor 11

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
