End Application:

Test set, programmable analog printed circuit board an/usm-616

Special Features:

Printed wiring board 1, conductor5, capacitor 47, coil 4, coupler 9, fuse 2, heat sink 1, holder 1, insulator1, light emitting diode 2, microcircuit 20, resistors 61, resistor network 2, ring retaining 1, diode 17, socket 8, spacer 1, strap 1, switch 2, transformer rf 1, transformer toroid 1, transistors 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
