End Application:

Test set, programmable analog printed circuit board an/usm-61

Special Features:

Printed wiring board 1, attenuator 2, conductor 4, cable assembly rf 1, capacitors 121, choke rf 12, cca 1, coil rf 6, connectors 11, delay line 1, heat sink 2, microcircuits 14, relay 14, resistors 182, resistor network 3, diode 26, shield 3, socket 155, terminal 4, transformer 2, transistor 36

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511k0
