End Application:

Csoc security control system

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Functional description: serial interface

Special Features:

Jacksocket assembly rear panel mtg 2; fox adapter serial int 1; fiber optic transceiver 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
