End Application:

Defense meteorological satellite program

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Brilliance inversion

Special Features:

Pwb 1; resistor 25; capacitor 17; diode 2; integrated circuit 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
