End Application:

B-1b

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Minibus a input memory assembly

Special Features:

Printed wiring board 1; microcircuits 81; capacitor 59; resistor network 2; electrostatic discharge sensitive; n/h/a 433977-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
