End Application:

Automatic test equipment (ate)

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Device controller, storage

Special Features:

Pwb 1; capacitor 64; integrated circuit 77; resistor network 1; resistor 22

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
