End Application:

Meterological equip, 433I weather observation and forecasting system and projects

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Special Features:

6660-01-056-0923, telescope set, solar; functions as the image display controller for the dips

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A511k0
