End Application:
Meterological equipment, 433l weather observation and forcasting systems and projects
Features Provided:
Electrostatic sensitive
Criticality Code Justification:
Cbbl
Special Features:
6660-01-056-0923, telescope set, solar; controls sequential scan of video input signal, controls camera acquisition
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
File:
