Overall Length:

12.180 inches

Overall Height:

1.220 inches

Overall Width:

7.250 inches

End Application:

Nato nads

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Circuit card assembly-weather processor

Special Features:

Pwb 1, mkcts 88, capacitors 56, resistor netwks 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
