End Application:

Position and azimuth determining system, pads, nsn 6675-01-071-5552, used on battery charger

Special Features:

Component quantity: printed wiring board 1, capacitor 13, semiconductor 24, microcircuit 1, voltage regulator 1, transistor 7, reactor 1, transformer 1, relay 1, resistor 18, connector 1, contact 2, socket 4, socket spring 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
