End Application:

Communication system

Special Features:

Major components: capacitor 10; printed wiring board 1; integrated circuit 16; resistor, fixed film 21; diode 15; purchase description identification: 80063-sm-d-986348-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
