| Overall Length:  |
|--|
| 6.000 inches   |
| Overall Height:  |
| 5.300 inches   |
| Product Name:  |
| Functional description: accepts signals ranging from +10.24v to -10.24v and converts to digitalrepresentations |
| Special Features:  |
| Analog to digital converter, slow 1, sel zen diode/res set 1, resistor trim 2                                  |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:   |
|  |
| Demilitarization:  |
| No   |
| Fiig:  |
| A511k0   |
