End Application:

Automatic test equipment (ate)

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Cca pulse position data board

Special Features:

Pwb 1, cap 65, diode 6, res 30, microcircuit 58, component adapter socket 5, res network 1; alq131 ilse; pulse position data board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
