Overall Length:

10.000 inches

Overall Height:

0.260 inches

Overall Width:

6.050 inches

End Application:

Central office, telephone an/ttc-39

Special Features:

Major components: capacitor 30; connector 1; crystal oscillator 2; crystal unit 1; fuse 2; microcircuit 30; printed wiring board 1; resistor 18; resistor network 8; transistor 1

Precious Material And Location:

External surfaces wire leads and pins gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
