Overall Length:

10.000 inches

Overall Height:

0.260 inches

Overall Width:

6.050 inches

End Application:

Central office, telephone an/ttc-39d

Special Features:

Major components: capacitor 79; connector 1; crystal oscillator 3; diode 48; fuse 2; microcircuit 40; printed wiring board 1; resistor 27; resistor network 21; transformer 8; transistor 13

Precious Material And Location:

External surfaces wire leads and pins gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
