Overall Length:

10.000 inches

Overall Height:

0.260 inches

Overall Width:

6.050 inches

End Application:

Central office, telephone an/ttc-39d

Special Features:

Major components: capacitor 82; connector 1; crystal oscillator 5; diode 16; fuse 3; microcircuit 37; printed wiring board 1; resistor 115; resistor network 1; transformer 4; transistor 9

Precious Material And Location:

External surfaces wire leads and pins gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
